

What We Do?

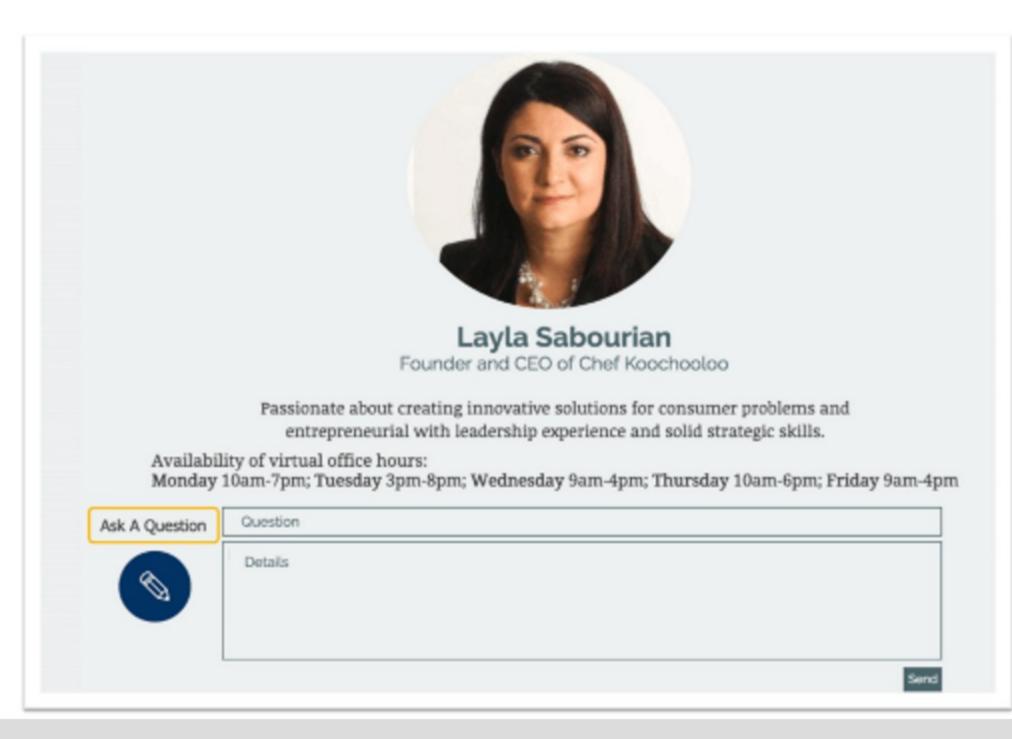

Career Indicator designed to discover individuals' career goals by examining their interests, abilities and values. The real-time assessment reports, generated by government official database, indicate individual's best-fit jobs and competencies. This data-driven algorithm and well-designed questions ensure the most accurate and bias-free results.

Analytic Report

Analytic report serves as a great tool for career development assessment to measure student's engagement rate and demography. It also tracks the number, topic and type of questions asked on the Q&A platform, which is a good indicator for trend of services. This quarterly report enables you to continuously assess the efficiency of your career development services, and strategically make plans for the next quarter.

Office Hours

Office hours enable career counselors to answer any questions online within certain time. Students can all be active participants, instead of waiting for a drop-in visit or an appointment. Questions and answers can be archived so that users can go back through the questions for review and clarification, likewise, for those students who did not participate in the office hours. It also assures students of a timely response.

Why

Virtual

An online platform to easily access, save and manage all of the information and tools any time, anywhere.

Flexible

What Students Say?

Alexandra R.
San Francisco, CA

Great experience with Yanset! They sat with me and reviewed my resume thoroughly, I would definitely recommend if you are jumpstarting your career and need help.

Yesi M.
El Monte, CA

Yanset knows what building a career is from the inside out. I'm currently on the road to success because Yanset provides different services from reviewing your resume and cover letter to mock interview.

Nic G. Santa Monica, CA

I would highly recommend Yanset to anyone looking to start their career or transition into a different career. They helped me a lot with my resume and cover letter, and the staff is so friendly and welcoming.
